## BLUE DOG of the Month

"This is Kess my super crazy border collie. She lost her hind leg to cancer in Oct 2010, but she doesn't let being a tri-pawd slow her down. Kess may only be 3/4 of a dog, but she's 100% border collie. She continues to train for agility competitions and competes in canine disc. Just about the only thing she'll sit still for are some tasty Blue Dog Treats. This pic is from Marymoor dog park, and she's doing her best to look like a bi-pawd, but if you look closely you can just see her hind leg. " - Adriana

Congratulations, Kess -- you're our March Blue Dog of the Month!
