## Tired Dog

An old, tired-looking dog wandered into the yard. I could tell from his collar and well-fed belly that he had a home.

He followed me into the house, down the hall, and fell asleep in a corner. An hour later, he went to the door, and I let him out.

The next day he was back, resumed his position in the hall, and slept for an hour.

This continued for several weeks. Curious, I pinned a note to his collar: "Every afternoon your dog comes to my house for a nap."

The next day he arrived with a different note pinned to his collar: "He lives in a home with ten children -- he's trying to catch up on his sleep. Can I come with him tomorrow?"

**New packaging for Doggie Paws and PB Softies helps fight global warming**

Blue Dog is changing these treats into environmentally friendly boxes. Our original bags were petroleum based and came from the Far East across the Pacific to our bakery. We felt we could no longer condone that carbon footprint.

So, we are changing now to recycled cardboard boxes with inner cellophane bags that are biodegradable. This packaging comes from around the corner from us!

Convenient, recyclable and uses less energy!
